I.C.T.-Student Feedback on Year 10/11/12 -weBlog

Hi there, well you have been viewing the GCSE weblog, commenting and reading for up to a year or so by now depending in which year group you are in. Some of you have written posts, some of you have podcasted (recorded audio) and some of you have had pictures in posts and some of you might have even commented on different posts – criticising or sharing information. What do you think. Do you think it is a waste of your and Dr Tech's time? Do you think it is interesting and fun? Do you think things could be improved? Well Dr Tech would like to here your truthful comments – so we can improve how we use our weblog for the ICT classes.

You will need to put a cross across the box like this, and add a comment if you would like in the last column.

Questions here...read carefully...	Remember to cross through the box you agree with in this column...					Add Comments In This column...
	It's Okay..	It's Fab...	No I hate it...			
1) Do you like the weblog for your class?						
2) Have you podcasted (produced an audio broadcast)?	Yes	No	<div style="border: 1px dashed gray; padding: 5px;"> <p>Please listen to our audio podcasts about international Amina and Abdalla.</p> <p>⏪ ⏩</p> <p>🔊 <small>AUDIO MP3</small> International Day 1 [1:04m]: Play Now E</p> <p>🔊 <small>AUDIO MP3</small> International Day 2 [1:05m]: Hide Player</p> <p>📁 Filed under Year 7</p> </div>			
3) Please write in the comments if Podcasting is a good thing to use?						
4) Have you listened to any podcasts? If so what was it?	Some times	Once	Never			
5) How often do you visit in a week?	Never	Once	Twice	When I have to...	More than that...everyday....	
6) Have you ever commented – that means added your own words to a post?	Never	Once	Twice	When I have to...	More than that...everyday....	

<p>7) Do you read other students comments? Have they ever helped you, explain what was in their comments...?</p>	<p>Yes</p>	<p>No</p>	 <p>Recent Comments: Year 10 - Surprise Surprise... drtech: The surprise was that I had said Mr Nicholas would be marking them, and then decided at the last minute... islam: whats the surprise UPDATE - Happy New Year and EID, 4 Days to Go....Then Back to School - UPDATE: Ahmed A.: Vista (as much as I hate to admit) it will not fail. People are suckers for Windows, the worse it is, the more they wanted. "Did you hear about the new Windows? It only crashes once a day! Cool, eh drtech: Malak, yes I think I could do with one of those after a GCSE ICT lesson. This might be called... malak: in 2007 there's a device called the Q link that is like a pendant The theory behind the QLink technology... Why I use Linux - An Indepth Discussion... drtech: Check out this picture and see what you think is Open Source or Microsoft winning? Wars Ahmed A.: Mucho Gracias... I appreciate that. :)</p>	
<p>8) Do you find the weblog confusing in design? If so comment on what you might change?</p>	<p>Yes</p>	<p>No</p>	<p>A little...</p>	
<p>9) Look at the following comments and discussion about technology– do you like to discuss things this way. Do you think that this adds an extra way to share information, as well as class discussion? Please explain what you think about this in the comments column...</p>	 <p>I think that the production of the new generation of windows operating system will be the big thing of 2007. Vista! I have read and heard of the features of Vista and it looks very interesting indeed. Very exciting stuff!</p> <p>6. Omar A Said: January 14th, 2007 at 9:00 am edit i would predict that 2007 would be sony's and mac's big year. sony will be high in the skies with the PS3 and mac might rule the world of mobile phones through the iPhone which is highly anticipated. as for Microsoft, I would say that VISTA will fail because it was purposed many times which could indicate a failure.</p> <p>7. drtech Said: January 14th, 2007 at 10:56 am edit I would agree Omar....but remember Sony will take over 3 years to even break even with PS3? And they had many troubles with teh laptop battery recall. The iPhone is a different matter - but can you afford it? certainly can't.</p> <p>8. malak Said: January 16th, 2007 at 12:54 pm edit in 2007 there's a device called the Q link that is like a pendant The theory behind the QLink technology is that it makes people calmer and enhances their ability to perform in their chosen field..England coach Sven Goran Eriksson is thinking of getting the Q link for his players...yep..the world is going crazy!!! for more info about the Q link go to : http://www.bbc.co.uk/1/health/2006/09/060916_qlink.shtml</p> <p>9. drtech Said: January 16th, 2007 at 3:11 pm edit Malak, yes I think I could do with one of those after a GCSE ICT lesson. This might be called part of the new area of 'ubiquitous' technology that is being developed. Does anyone out there have an idea what I am talking about?</p> <p>10. Ahmed A. Said: January 16th, 2007 at 5:15 pm edit Vista (as much as I hate to admit) it will not fail. People are suckers for Windows, the worse it is, that more they wanted.
